ANNUAL SUMMER DERMATOLOGY CONFERENCE 2018

PRE-CONFERENCE PROGRAM

MORNING TRACK - DERMOSCOPY

AFTERNOON TRACK - PROFESSIONAL DEVELOPMENT

Mastering the Art of Dermoscopy — New This Year! The Dermoscopy Pre-Conference is an immersive half day program, led by Dr. Joslyn Kirby and Dr. Jennie Clarke. This track, targeted to both the beginner and advanced clinician, provides an in depth overview of dermoscopy for evaluation and management of melanocytic and nonmelanocytic skin lesions. Diagnostic algorithms and pattern analysis will be presented. In addition, clinical cases and pearls for practical application will be discussed. These lecture based sessions are a must for any practitioner with an interest in diagnostic dermatology and improving their clinical accuracy.

Professional Development — New This Year! Ever wonder what it takes to get to the next level? Is there more to being a dermPA than just the clinic? What are some of the key issues affecting dermPAs today? How can I find new ways to engage my patients? Find out the answers to all these questions and more during the Professional Development track. This exciting program, taking place the afternoon of the Pre Conference day, features key thought leaders in both the medical, legal, and business profession, who will cover a wide range of topics that directly affect PAs in practice today. Find out what you can do as a clinician, both personally and professionally, to evolve and advance!

WEDNESDAY, JUNE 27TH, 2018

Lecture sessions will be held in the Grand Ballroom unless otherwise noted.
